

## National Academy of Medicine Information Sheet

### Membership Overview (<https://nam.edu/membership>)

- **Prestige:** Election to the National Academy of Medicine (NAM) is one of the highest honors in the fields of health and medicine. It recognizes individuals for outstanding professional achievement and commitment to service in advancing medical science, healthcare, and public health.
- **Annual Elections:** Up to 90 U.S. members and 10 international members are elected each year.
- **Who Can Nominate:** Only current NAM members may submit nominations.
- **Confidentiality:** **Nominations are privileged and confidential. Campaigning is strictly prohibited.**

### Member Directory (<https://nam.edu/membership/members/directory>)

- You can search for current NAM members, including those affiliated with Ohio State University, using the NAM Member Directory.
- The directory allows filtering by name, institution, election year, and geographic location.

### Membership Sections (<https://nam.edu/membership/member-sections/>)
